

KI-2012:
Poster and Demo Track

35th German Conference on Artificial Intelligence
September 24-27, 2012
Saarbrücken, Germany

Stefan Wölfel (Ed.)

Contact address:

Dr. Stefan Wölfel
Institut für Informatik
Albert-Ludwigs-Universität Freiburg
Georges-Köhler-Allee 52

Program Committee

Christian Becker-Asano
Christoph Beierle
Maren Bennewitz
Mehul Bhatt
Boris Brandherm
Lutz Frommberger
Birte Glimm
Björn Gottfried
Sven Hellbach
Oliver Kutz

Marco Ragni
Gabriele Röger
Jürgen Sauer
Stefan Schiffer
Lars Schmidt-Thieme
Angela Schwering
Thora Tenbrink
Ingo J. Timm
Rudolph Triebel
Stefan Wölfl

Additional Reviewers

Osman Akcatepe
Rasoul Karimi
Neelava Sengupta

Acknowledgements

Special thanks go to the members of the Program Committee for their careful reviews and helpful comments on the submitted contributions, to the Local Organization Team of KI-2012, coordinated by Boris Brandherm and Ralf Jung, for their support in organizing the Poster & Demo Session, and to Rebecca Albrecht for her help in compiling this collection of poster and demo papers.

– *Stefan Wölfl*

Table of Contents

Invited Project Contributions	1
The Robot Head “Flobi”: A Research Platform for Cognitive Interaction Technology	3
<i>Sven Wachsmuth, Simon Schulz, Florian Lier, Frederic Siepmann, and Ingo Lütkebohle</i>	
Assistance Robotics: A Survival Guide for Real World Scenarios	8
<i>Hans-Joachim Böhme, Sven Hellbach, Frank Bahrmann, Marc Donner, Johannes Fonfara, Marian Himstedt, Mathias Klingner, Peter Poschmann, Mathias Rudolph, and Richard Schmidt</i>	
Dora: A Robot that Plans and Acts Under Uncertainty	12
<i>Moritz Göbelbecker, Marc Hanheide, Charles Gretton, Nick Hawes, Andrzej Pronobis, Alper Aydemir, Kristoffer Sjöo, and Hendrik Zender</i>	
The Transregional Collaborative Research Center SFB/TR 8 Spatial Cognition . .	17
<i>Thomas Barkowsky and Julia Gantenberg</i>	
Collaborative Process Assistant – Towards a Context-sensitive Business Process Support Based on Emails	21
<i>Julian Krumeich, Thomas Burkhart, Dirk Werth, and Peter Loos</i>	
uService – A Personalized and Situation-Aware Recommender System for User-Generated Mobile Services	25
<i>Alexandra Chapko, Andreas Emrich, Marc Gräßle, Dirk Werth, and Peter Loos</i>	
ARGUMENTUM – Towards Computer-Supported Analysis, Retrieval and Synthesis of Argumentation Structures in Humanities Using the Example of Jurisprudence	30
<i>Constantin Houy, Peter Fettke, Peter Loos, Iris Speiser, Maximilian Herberger, Alfred Gass, and Ulrich Nortmann</i>	
Facetted Search on Extracted Fusion Tables Data for Digital Cities	34
<i>Jochen Setz, Gianluca Quercini, Daniel Sonntag, and Chantal Reynaud</i>	
The ALIZ-E Project: Adaptive Strategies for Sustainable Long-Term Social Interaction	39
<i>The ALIZ-E project team</i>	
PeerEnergyCloud – Trading Renewable Energies	42
<i>Jochen Frey, Boris Brandherm, and Jörg Baus</i>	

Poster Contributions	47
Towards Augmenting Dialogue Strategy Management with Multimodal Sub-Symbolic Context	49
<i>Paul Baxter, Heriberto Cuayáhuitl, Rachel Wood, Ivana Kruijff-Korbayová, and Tony Belpaeme</i>	
Eager Beaver – A General Game Player	54
<i>André Doser, Florian Geißer, Philipp Lerche, and Tim Schulte</i>	
Histogram-based Outlier Score (HBOS): A fast Unsupervised Anomaly Detection Algorithm	59
<i>Markus Goldstein and Andreas Dengel</i>	
A Concept of a Reliable Three-Layer Behaviour Control System for Cooperative Autonomous Robots	64
<i>Christian Rauch, Tim Köhler, Martin Schröer, Elmar Berghöfer, and Frank Kirchner</i>	
Dataset Generation for Meta-Learning	69
<i>Matthias Reif, Faisal Shafait, and Andreas Dengel</i>	
Meta ² -Features: Providing Meta-Learners More Information	74
<i>Matthias Reif, Faisal Shafait, and Andreas Dengel</i>	
Organizational Social Network Analysis – Case Study in a Research Facility . . .	78
<i>Wolfgang Schlauch, Darko Obradovic, and Andreas Dengel</i>	
Object Recognition with Multicopters	83
<i>Falk Schmidberger and Frieder Stolzenburg</i>	
Semantically-enriched Electric Car Recharge Optimization Toolkit	88
<i>Mikhail Simonov, Antonio Attanasio, and Davide Luzio</i>	
Ubiquitous Monitoring & Service Robots for Care	93
<i>Mikhail Simonov, Marco Bazzani, and Antonella Frisiello</i>	
Citation Context Sentiment Analysis for Structured Summarization of Research Papers	98
<i>Niket Tandon and Ashish Jain</i>	
Towards Robust Spontaneous Speech Recognition with Emotional Speech Adapted Acoustic Models	103
<i>Bogdan Vlasenko, Dmytro Prylipko, and Andreas Wendemuth</i>	
Tool Support for Activity Recognition with Computational Causal Behaviour Models	108
<i>Kristina Yordanova, Frank Krüger, and Thomas Kirste</i>	

Demo Contributions	113
Auto Classifier – Explaining Customers a Machine-Learning Model	115
<i>Benjamin Adrian, Markus Ebbecke, and Sebastian Ebert</i>	
Please Tell Me Where I Am: A Fundament for a Semantic Labeling Approach . .	120
<i>Frank Bahrmann, Sven Hellbach, and Hans-Joachim Böhme</i>	
MAINSIM – Multimodal INnercity SIMulation	125
<i>Jörg Dallmeyer and Ingo J. Timm</i>	
Appraise: an Open-Source Toolkit for Manual Evaluation of MT Output	130
<i>Christian Federmann</i>	
A Conversational System for Multi-Session Child-Robot Interaction with Several Games	135
<i>Ivana Kruijff-Korbayová, Heriberto Cuayáhuil, Bernd Kiefer, Stefania Racioppa, Piero Cosi, Giulio Paci, Giacomo Sommovilla, Fabio Tesser, Hichem Sahli, Georgios Athanasopoulos, Weiyi Wang, Valentin Enescu, Werner Verhelst, Lola Cañamero, Aryel Beck, Antoine Hiolle, Raquel Ros Espinoza, and Yiannis Demiris</i>	
Making Virtual Pancakes – Acquiring and Analyzing Data of Everyday Manipulation Tasks through Interactive Physics-based Simulations	140
<i>Lars Kunze, Andrei Haidu, and Michael Beetz</i>	
BendIT – An Interactive Game with two Robots	145
<i>Tim Niemueller, Stefan Schiffer, Albert Hellgrath, Safoura Rezapour Lakani, and Gerhard Lakemeyer</i>	
robOCD: Robotic Order Cups Demo – An Interactive Domestic Service Robotics Demo	150
<i>Stefan Schiffer, Tobias Baumgartner, Daniel Beck, Bahram Maleki-Fard, Tim Niemüller, Christoph Schwering, and Gerhard Lakemeyer</i>	
Using a Discourse and Dialogue Infrastructure for Collaborative Radiology	155
<i>Daniel Sonntag and Christian Schulz</i>	
Author Index	160
