VACANCIES IN INDUSTRIAL R&D

INDUSTRY HOST FELLOWSHIPS IN THE PRESTIGIOUS MARIE CURIE PROGRAMME

The cooperation between the Language Technology Lab of the German Research Center for Artificial Intelligence, DFKI GmbH (www.dfki.de/lt), and Innoserv GmbH provides an opportunity for potential fellows to carry out research and development in a worldwide renowned "Center of Excellence" in combination with a highly innovative SME offering market-oriented research in the field of IT-based business solutions.

In the framework of an EU-funded project we are offering fellowships for 2 pre-doctoral and 2 post-doctoral researchers. The duration of the fellowship will be up to 24 months, or 36 months in the case of doctoral studies.

The working environment will provide outstanding training facilities in both academic and industrial research and a very attractive stipend. The indicative gross monthly subsistence allowance is about 4,100 Euro for post-doctoral and 2.900 EURO for pre-doctoral fellows. The working language will be English and the starting date at your earliest convenience. The receipt of applications by the end of February and a starting date for the fellowship before the end of March are strongly preferred.

The research areas cover:

- Multilingual Information Retrieval,
- Agent Technologies,
- Information Management
- Content Analysis and
- Text Generation.

The candidate should have a strong university background and additional qualifications in the fields of information management or language technologies.

Experiences in the field of electronic commerce and skills in object-oriented software development will be highly appreciated.

Please send your application with the usual information to the following address:

Innoserv Media Solutions GmbH
Krämersweg 8
66123 Saarbrücken
GERMANY
