To strengthen our dedicated Speech and Language Technology team in Berlin we are looking for a

**Researcher (m/f/o)**

*(full-time, initially limited to 1 year)*

The Speech and Language Technology Lab at DFKI Berlin is involved in numerous national as well as international research programmes and networks. We offer an interesting and flexible work environment as part of an innovative, international and enthusiastic team which coordinates and participates in national as well as European projects in the wider area of Language Technology.

Your tasks:

- Creation and curating of online teaching materials in the field of AI
- Conception and support of online teaching formats
- Conception, support and evaluation of online exams
- Collaboration in various projects according to suitability
- If applicable, teaching activity (presence or online)

Your qualifications:

- Degree in Computer Science (Master's or comparable) or a subject with significant computer science content
- Good command of German and English
- Very good knowledge of office and web applications
- Knowledge of e-learning and learning platforms
- Knowledge in the areas of teaching, apprenticeship, training or further education
- Ability to work in a team, problem-solving and result-oriented, self-motivation
- Enjoy working in a dynamically growing team

Your benefits:

- Insights into university and industrial education and training
- A broad and interesting range of tasks with diverse development opportunities and scope for independent design
- An innovative, agile and professional working environment
- An attractive workplace in the heart of Berlin
