To strengthen our dedicated team in the research department Augmented Vision in Kaiserslautern we are looking for multiple

**Researchers (m/f/d) in the area of Computer Vision for Autonomous Driving**
*(full-time, initially limited to 2 years)*

The research department Augmented Vision, headed by Prof. Dr. Didier Stricker, is generally researching in the area of image processing, image understanding, computer vision and 3D reconstruction from camera images.

Your tasks:

- Research on algorithms for
  - Pose estimation of pedestrians
  - Domain adaptation
- Image processing and 3D Computer Vision
- Machine Learning and Deep Learning
- Scientific work in the form of publications

Your qualifications:

- Master in Computer Science (or related field)
- Experience in C/C++ and/or Python
- Experience in Deep Learning Frameworks (TensorFlow or PyTorch)

Your benefits:

- The opportunity to research in interdisciplinary international research projects at the intersection of image processing and artificial intelligence
- Excellent industrial contacts
- Excellent equipment
- Possibility of doing a PhD

We look forward to receiving your informative application documents including your earliest possible starting date up to 23.08.2019

Please contact Prof. Dr. Didier Stricker for further information and send your application via E-Mail to av-jobs@dfki.de.
