To strengthen our dedicated team in the research department Interactive Textiles in Berlin we are looking for an Open Mobility Analyst (m/w/d) for the Project „Open Source Lab for Sustainable Mobility“ wanted (part-time or full-time, initially limited to 12 month)
Application deadline: 1st of December 2019

DFKI Berlin is looking for an Open Mobility Analyst (m/w/d) for the project „Open Source Lab for Sustainable Mobility,” located at EUREF Campus Berlin, with a focus on Urban Studies, Urban Policy/Planning, Transport Management, Economics, Politics, or related disciplines. The Open Source Lab is initiated by the Volkswagen Sustainability Council.

Your tasks:
≫ Independent realization of different topics (such as the mobility behavior of younger generations): conception, editing and creation of comparative analyses, best-practice reports, (policy) papers, conduction and evaluation of interviews with experts
≫ Conduction and evaluation of user tests and workshops with users in the course of the further development of an Open Source App of the Lab in the field of CO2 tracking and mobility behavior
≫ Close cooperation with our interdisciplinary team as well as the Lab’s international network
≫ Contextual support for the conception and implementation of stakeholder workshops with international partners and meetup events

Our requirements:
≫ Completed postgraduate-degree in the fields of Urban Studies, Urban Policy/Planning, Transport Management, Economics, Politics or similar disciplines
≫ At least two years of work experience, ideally in political or scientific organizations, think tanks, foundations or federations, companies, consulting, preferably connected to mobility
≫ Experience in creating publications of a Think Tank such as summarizing best-practice reports, analyses, short briefings, ideally in collaboration with other actors
≫ Strong interest in the connection between technology and mobility and willingness to gather project-specific knowledge
≫ Familiarity with concepts such as Open Source and Open Data
≫ Team player with distinct, analytical and strategical working method

Please send your application until 1st of December 2019 in one PDF document to: Recruiting-intex@dfki.de. We look forward to receiving your application!

The German Research Center for Artificial Intelligence (DFKI) is Germany's leading business-oriented research institution in the field of innovative software technologies based on artificial intelligence methods. In the international scientific community, DFKI ranks among the most recognized “Centers of Excellence” and currently is the biggest research center worldwide in the area of Artificial Intelligence and its application in terms of number of employees and the volume of external funds. The DFKI cooperates closely with national and international companies.

Severely disabled applicants and peers are given special consideration if they are equally suitable. The DFKI intends to increase the proportion of women in science and therefore expressly invites women to apply.
