For our research department Algorithmic Business & Production in Saarbrücken we are looking for a

**Junior Researcher (B.Sc.) (f/m/d)**
*(full or part-time, initially limited)*

with focus on the intelligent analysis and optimization of business and industrial processes

Your tasks:

- Support of our research and development projects focusing on the intelligent analysis and optimization of business and industrial processes using mathematical and AI-based methods
- Implementation of methods and tools for various application areas (logistics, industry, health care, environment)
- Support of our teaching and consulting activities

Your qualifications:

- Bachelor in computer science, business informatics, or mathematics with very good to good grades
- Software engineering know-how and desire to work on exciting software projects

Your benefits:

- Diverse work opportunities leaving room for creativity and independence
- Strong support and excellent opportunities for advancing your student and professional career
- Wide range of outstanding scientific and industrial contacts
- An innovative, agile and professional research environment at one of leading computer science sites in Germany

We look forward to receiving your informative application documents in electronic form at abp-office@dfki.de until 10.01.2020.

The German Research Center for Artificial Intelligence (DFKI) is Germany’s leading business-oriented research institution in the field of innovative software technologies based on artificial intelligence methods. In the international scientific community, DFKI ranks among the most recognized “Centers of Excellence” and currently is the biggest research center worldwide in the area of Artificial Intelligence and its application in terms of number of employees and the volume of external funds. The DFKI cooperates closely with national and international companies.

Severely disabled applicants and peers are given special consideration if they are equally suitable. The DFKI intends to increase the share of women in the field of science and therefore urges women to apply.
