To strengthen our dedicated Speech and Language Technology team in Berlin we are looking for a

**Researcher (m/f/o)**

(full-time, initially limited to July 2021)

The Speech and Language Technology Lab at DFKI Berlin is involved in numerous national as well as international research programs and networks. We offer an interesting and flexible work environment as part of an innovative, international and enthusiastic team which coordinates and participates in national as well as European projects in the wider area of Language Technology.

In the project Evalitech DFKI is researching the development of an innovation-oriented evaluation metric for I4.0 based on Artificial Intelligence. The task is the conceptual development of a multidimensional indicator matrix.

**Your tasks:**

≫ Research of existing indicators under inclusion of existing research
≫ Creation, evaluation and Wizard of Oz realization of possible AI based quality criteria for indexing
≫ Organization of the cooperation of the partners involved

**Your qualifications:**

≫ Master’s degree in Computer Science, Computational Linguistics or Cognitive Sciences (of equivalent)
≫ Very good English language skills
≫ Basic understanding of language technology techniques such as named entity recognition, relation extraction, entity linking, information retrieval and other forms of information extraction
≫ Excellent communication skills and team spirit

**Your benefits:**

≫ Excellent working conditions with interesting research topics in an interdisciplinary team at an internationally renowned research centre
≫ A broad and interesting range of tasks with diverse development opportunities and scope for independent design
≫ An innovative, agile and professional working environment
≫ An attractive workplace in the heart of Berlin

We look forward to receiving your informative application documents with details of your earliest possible starting date until 30.09.2020. Please send your application exclusively in digital form stating the reference number 86-20/SN to Majella Hirschberg (slt-sek@dfki.de).

---

The German Research Center for Artificial Intelligence (DFKI) is Germany's leading business-oriented research institution in the field of innovative software technologies based on artificial intelligence methods. In the international scientific community, DFKI ranks among the most recognized “Centers of Excellence” and currently is the biggest research center worldwide in the area of Artificial Intelligence and its application in terms of number of employees and the volume of external funds. The DFKI cooperates closely with national and international companies.

Severely disabled applicants and peers are given special consideration if they are equally suitable. The DFKI intends to increase the proportion of women in science and therefore expressly invites women to apply.
