To strengthen our dedicated team in the research department Interactive Textiles in Berlin we are looking for a

Student Worker (m/w/d)  
(initially limited to 3 months)

The DRLab at the Berlin University of The Arts works on interdisciplinary design research projects that mediate the gap between technological innovations and people's real needs. With more than twenty researchers and headed by Prof. Dr. Gesche Joost, we are exploring smart textiles, human computer interaction as well as communities in our digital society.

Your tasks:
- Iterative development and advancement of eGovernment applications and the associated graphical user interfaces based on user test results of the project team (screen design: mobile and web)
- Application of own experience in visual design of an app’s GUI
- Preferably working with Adobe Suite (others are possible)
- Potentially animation of interface elements to present results to cooperation partners

Your qualifications:
- Degree in interface, communication or graphic design or a similar subject with a relevant share of specialist knowledge
- Experience in designing GUI
- Good command of German

Your benefits:
- Opportunity to work on interdisciplinary research projects at the intersection of design, electrical engineering and informatics
- Excellent equipment as well as an innovative, agile and professional working environment

We look forward to receiving your informative application documents including your earliest possible starting date.

The German Research Center for Artificial Intelligence (DFKI) is Germany's leading business-oriented research institution in the field of innovative software technologies based on artificial intelligence methods. In the international scientific community, DFKI ranks among the most recognized "Centers of Excellence" and currently is the biggest research center worldwide in the area of Artificial Intelligence and its application in terms of number of employees and the volume of external funds. The DFKI cooperates closely with national and international companies.

Severely disabled applicants and peers are given special consideration if they are equally suitable. The DFKI intends to increase the proportion of women in science and therefore expressly invites women to apply.
