

UMAP 2019 Workshops & Tutorials Overview

It is our great pleasure to welcome you to the *ACM UMAP 2019 Workshops and Tutorials* proceedings. In the 27th edition of the ACM Conference on User Modeling, Adaptation and Personalization, a total of 10 workshop and 3 tutorial proposal submissions were received for consideration. After a single-blind peer review process, 7 workshops and 2 tutorials were accepted. They were held in conjunction with the conference in Larnaca (Cyprus) on the 9th of June, 2019.

The selected workshops were:

- ADAPPT 2019: 1st Adaptive and Personalized Persuasive Technology Workshop (accepted as half-day event)
- APPS 2019: 1st International Workshop on Adaptive and Personalized Privacy and Security (accepted as half-day event)
- HAAPIE 2019: 4th International Workshop on Human Aspects in Adaptive and Personalized Interactive Environments (accepted as full-day event)
- EvalUMAP 2019: 3rd Towards Comparative Evaluation in User Modeling, Adaptation and Personalization Workshop (accepted as half-day event)
- ExHUM 2019: 1st International Workshop on Transparent Personalization Methods based on Heterogeneous Personal Data (accepted as full-day event)
- FairUMAP 2019: 2nd Workshop on Fairness in User Modeling, Adaptation and Personalization (accepted as full-day event)
- PATCH 2019: 10th International Workshop on Personalized Access to Cultural Heritage (accepted as half-day event)

Attending to their organizers' requests, HAAPIE and ADAPPT were finally joined as a full-day workshop, and considering its relatively high number of papers, PATCH was extended as a full-day event. Thus, workshops were organized in 5 parallel session tracks.

The selected 3-hour tutorials, organized in a sixth session track, were:

- User Ownership and Control of Data with Distributed Ledger
- Empirical Evaluation of User Modeling Systems

We would like to thank all workshop organizers and tutorial speakers for their engagement and cooperation along the process.

UMAP 2019 Workshops & Tutorials Organization

Workshops & Tutorials Chairs: Milos Kravcik (*German Research Center for Artificial Intelligence, Germany*)
Iván Cantador (*Universidad Autónoma de Madrid, Spain*)

ADAPPT 2019 Organizers: Kiemute Oyibo (*University of Saskatchewan, Canada*)
Ifeoma Adaji (*University of Saskatchewan, Canada*)
Rita Orji (*Dalhousie University, Canada*)
Julita Vassileva (*University of Saskatchewan, Canada*)

APPS 2019 Organizers: Marios Belk (*UCLan Cyprus, Cyprus*)
Christos Fidas (*University of Patras, Greece*)
Elias Athanasopoulos (*University of Cyprus, Cyprus*)
Andreas Pitsillides (*University of Cyprus, Cyprus*)

HAAPIE 2019 Organizers: Panagiotis Germanakos (*SAP SE & University of Cyprus, Cyprus*)
Vania Dimitrova (*University of Leeds, UK*)
Ben Steichen (*California State Polytechnic University, Pomona, USA*)
Alicja Piotrkowicz (*University of Leeds, UK*)

EvalUMAP 2019 Organizers: Liadh Kelly (*Maynooth University, Ireland*)
Bilal Yousuf (*Trinity College Dublin, Ireland*)
Owen Conlan (*Trinity College Dublin, Ireland*)
Kevin Koidl (*Trinity College Dublin, Ireland*)
Séamus Lawless (*Trinity College Dublin, Ireland*)

ExHUM 2019 Organizers: Cataldo Musto (*University of Bari, Italy*)
Amon Rapp (*University of Torino, Italy*)
Federica Cena (*University of Torino, Italy*)
Frank Hopfgartner (*University of Sheffield, UK*)
Judy Kay (*University of Sydney, Australia*)
Giovanni Semeraro (*University of Bari, Italy*)
Nava Tintarev (*Delft University of Technology, The Netherlands*)
Aonghus Lawlor (*University College Dublin, Ireland*)
Pasquale Lops (*University of Bari, Italy*)

FairUMAP 2019 Organizers: Bamshad Mobasher (*DePaul University, USA*)
Robin Burke (*University of Colorado, Boulder, USA*)
Michael Ekstrand (*Boise State University, USA*)
Bettina Berendt (*KU Leuven, Belgium*)
Styliani Kleantous (*Open University of Cyprus, Cyprus*)
Tsvi Kuflik (*University of Haifa, Israel*)
Jahna Otterbacher (*University of Michigan at Ann Arbor, USA*)
Alan Hartman (*University of Haifa, Israel*)
Veronika Bogina (*University of Haifa, Israel*)

PATCH 2019 Organizers: Liliana Ardissono (*University of Torino, Italy*)
Cristina Gena (*University of Torino, Italy*)
Tsvi Kuflik (*University of Haifa, Israel*)
Noemi Mauro (*University of Torino, Italy*)

“User Ownership and Control of Data with Distributed Ledger” Tutorial Speakers: Ralph Deters (*University of Saskatchewan, Canada*)
Julita Vassileva (*University of Saskatchewan, Canada*)

“Empirical Evaluation of User Modeling Systems” Tutorial Speaker: David N. Chin (*University of Hawaii, USA*)
