

Please complete this form and send it to Incs@springer.com or anna.kramer@springer.com.

- Names, Affiliations and Email-Addresses of all of the Volume Editors, in the order and in the form in which they are to appear on the cover, not forgetting any middle initials you would like to include. Kindly double check that you have included ALL of the volume editors whose names are to appear on the cover. Editors' names cannot be added following publication. (Please make special mention of the contact volume editor.) NB: The information provided here will be used for the cover and the imprint page of the book. Please use the western naming convention. The "last name" is the family name.

	Editor 1	Editor 2	Editor 3	Editor 4

¹ The identities of the reviewers remain anonymous but the authors' names appear on the paper.

² Both the reviewers' identities and the authors' identities remain anonymous.

³ The reviewers' identities are known.

--	--	--	--	--

1a. **Name of Volume Contact Editor:** Helmut Horacek

2. Kindly confirm that you have drawn the authors' attention to our [Editorial Policies](#).

yes

3. Please provide a list of some 8-20 keywords pertaining to the topical focus of the work. The ACM codes on the following site: <http://www.acm.org/about/class/2012?pageIndex=0> provide a useful source of such keywords.

Natural language processing
 Natural language interfaces
 Discourses, dialogue and pragmatics
 Question answering
 Natural language generation
 Neural networks
 Sentiment analysis
 Ontologies
 Information retrieval query processing

4. Would you like to order free online access to the proceedings on SpringerLink for the conference participants for a period of 4 weeks? If so, please provide the name and email address of your webmaster and the URL of your conference website here:

Christian Willms, christian.willms@dfki.de, <http://nldb2021.sb.dfki.de>

NB: We do not set up 4-week online access if your conference website is a Google site.

5. In order to promote transparency, we request the following information regarding the submission and review process. This information may be made available on SpringerLink.

Number of submissions sent for peer review:	82
Number of full papers accepted:	19
Number of short papers accepted (This should have been discussed and agreed with the Springer Editor):	14
Number and type of other papers accepted (This should have been discussed and agreed with the Springer Editor):	0

Type of peer review used (single blind ¹ , double blind ² , open peer review ³ , or other (please specify which)):	single blind
Average number of reviews received per submission:	3
Average number of papers per reviewer:	5
Were external reviewers involved (outside the PC)	yes
Was an online submission system employed? Which one?	EasyChair

Please inform the sender of this document by email if you do not wish the review information to be made public and, if possible, give the reasons.

The order of the papers in the volume should reflect their topical focus. Please include topical headings in your Table of Contents. All papers pertaining to one topic should be grouped under one single topical heading, even if there were two or three such sessions at the event, and no session numbers should be included.

Please read the guidelines carefully. The checklist at the end of the document lists everything we require from you. Missing source files, (e.g., bbl files) slow down the production process considerably, so please make sure that we have all of the source files from the beginning. Equally, the list of corresponding authors, together with their email addresses, should not be omitted.

The editors' page can be found here: <https://www.springer.com/gp/computer-science/lncs/editor-guidelines-for-springer-proceedings>

And the authors' page can be found here: <https://www.springer.com/gp/computer-science/lncs/conference-proceedings-guidelines>

¹ The identities of the reviewers remain anonymous but the authors' names appear on the paper.

² Both the reviewers' identities and the authors' identities remain anonymous.

³ The reviewers' identities are known.
